This document is an Acrobat version of selected photocopies of Ralph's original pages. New pages will be added from time to time. Each page contains information on one of Ralph's relatives. They are approximately equal to family group sheets with comments.

These family information sheets were created around the 1950's. For the most part, there are no original sources cited. However, some of the information has been confirmed independently. I think some of the information was contributed by the subjects from their personal memory.

Ralph died January 27, 1993, in Sun City, AZ.
